PERSONAL

Date of Birth : 20.04.1979

Nationality : Filipino

Marital Status : Married

Visa : Family Reunion Visa
(Type D)

Language : English
(Professional), Tagalog
(Native), German (A1)

TECHNICAL SKILLS

Devices : Cisco (Router, switches, Wireless AP, VPN, SDWAN), Juniper, PaloAlto (Firewall), F5 BIG IP (Load Balancer), Pulse Secure (VPN).

Cloud : Meraki, Ubiquity, AWS, Azure.

Protocol : BGP, OSPF, EIRGP, HSRP, VRRP, DNS, VRRP, VXLAN, VLAN, SNMP, Telnet, SSH, OSI, VOIP, TCP/IP, MPLS, NAT, DNS, ACL.

Coding : Python, HTML5, CSS3, Javascript, Power Automate, Power BI, Ansible, Rest API, Linux, SQL database

Monitoring : ServiceNow, Solarwind, SpectrumCA, Remedy, Netbrain, Cisco Manage, Secure CRT, Wireshark.

ABOUT

Certified Cisco Network Associate (CCNA) with extensive experience in network operations, technical support, and the management of IT infrastructure and data centers. Strong expertise in Desktop support, network diagnostics, routing protocols, and cloud fundamentals, with proven experience collaborating with international service providers. Self-motivated, detail-oriented professional who performs effectively in fast-paced, mission-critical environments.

WORK EXPERIENCE

REED ELSEVIER INC (LEXIS NEXIS / RELX)

COMMAND CENTER NETWORK ENGINEER II

Manila, Philippines

January 2023 - July 2025

- Provided Level 2 network operations support across routing, switching, VPN, SD-WAN, firewall access, and load balancer connectivity in complex enterprise environments.
- Escalation point for network incidents from Service Desk, local IT, and Information Security teams, serving as primary contact for high-severity outages and incident management.
- Performed continuous network monitoring and in-depth incident analysis using enterprise monitoring platforms, ensuring rapid detection and resolution of issues.
- Supported and optimized multi-vendor network environments by maintaining routing protocols, firewall configurations, WLAN/DNS services, and implementing automation solutions to improve operational efficiency and reporting.

DATA CENTER NETWORK ENGINEER

March 2017 - April 2022

- Monitored and supported complex enterprise network environments, including Cisco routing and switching, Palo Alto firewalls, F5 load balancers, and physical and virtual COLO infrastructures.
- Diagnosed and resolved hardware, software, and network connectivity issues proactively, ensuring high availability, stability, and performance.
- Managed day-to-day network operations through ServiceNow, including incident handling, change management, capacity planning, and continuous service improvement.
- Applied strong expertise in IP networking technologies (BGP, OSPF, MPLS, TCP/IP, IPsec, SD-WAN, wireless) while collaborating effectively with internal teams and external vendors to deliver reliable network services.

QBE INSURANCE - PH

NETWORK INFRASTRUCTURE ENGINEER

Taguig City, Philippines

May 2022 - December 2022

- Maintained and operated enterprise network infrastructures, including LAN, WAN, VPN, and cloud connectivity, ensuring high availability and reliability.
- Implemented and managed network changes such as DNS configurations and firewall access controls, in compliance with security and governance standards.

CERTIFICATES

- **Cisco Certified Network Associate (CCNA)**

Cisco ID: SCO13265746 Issued :
Oct 2018

- **AWS Cloud Practitioner**

Candidate ID: AWS01175865
Issued : Dec 2019

- **Microsoft Azure Fundamental (AZ-900)**

C a n d i d a t e I D :
MS0991177719
Issued : Nov 2021

- Monitored network performance, proactively resolved incidents, and implemented optimization measures to improve stability and service continuity.
- Collaborated with IT, security, and operations teams to support network upgrades, migrations, and IT projects, while maintaining accurate technical documentation.

SYKES ASIA - PH

TECHNICAL SUPPORT ENGINEER - TIER 2 BVOIP

Manila, Philippines

June 2012 - February 2017

- Resolved escalated VoIP and SIP-related incidents, including registration failures, call quality degradation, firewall/NAT issues, and routing problems.
- Installed, configured, and maintained IP telephony systems, endpoints (e.g., Cisco, Yealink), and Session Border Controllers (SBCs) to ensure service reliability.
- Supported voice-related network infrastructure, managing LAN/WAN components and implementing QoS policies to optimize call quality and performance.
- Coordinated with SIP carriers on call routing, number porting, and provisioning, while monitoring network performance and maintaining comprehensive technical documentation and SOPs.

TECHNICAL SUPPORT ENGINEER

February 2008 - June 2012

- Served as the primary point of contact for circuit-related incidents, handling both proactively detected and customer-reported network issues.
- Monitored managed AT&T circuits using enterprise monitoring tools, responding to service interruptions, performance degradation, and alarms escalated by Helpdesk and NOCs.
- Logged, tracked, and managed incidents within the AT&T ticketing system, ensuring accurate documentation, customer communication, and clear incident ownership.
- Assessed incident severity and coordinated resolution with AT&T support teams, delivering timely remediation in accordance with defined Service Level Agreements (SLAs).

AXIS GLOBAL TECHNOLOGY

JUNIOR TECHNICAL SUPPORT ENGINEER

Manila, Philippines

February 2006 - March 2008

- Investigated and resolved technical issues related to Component A products, including PC components and peripheral devices.
- Lead Engineer for Inno3D and Western Digital product lines, providing advanced technical support and expertise.
- Diagnosed hardware-related RMA cases and prepared detailed technical evaluation and failure analysis reports.
- Supported hardware compatibility testing and coordinated the escalation of confirmed defects to product vendors and manufacturers.

EDUCATION :

BACHELOR OF SCIENCE IN ELECTRONICS AND COMMUNICATION ENGINEERING

NEW ERA UNIVERSITY, Manila Philippines

School Year : 1996 - 2001

REGISTERED ELECTRONIC AND COMMUNICATION ENGINEER

PROFESSIONAL REGULATION COMMISSION (PRC), Manila Philippines

Professional License No. : 26141

Issued : April 2002
